Ecommerce SEO is six jobs

Product pages
The page a shopper buys from.

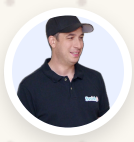

Category pages
The pages that list a range of products.

Technical and migrations
How the site is built, and moving it to a new one.

Content
Written for the reader, mostly by specialist writers.

Digital PR
Press coverage that uses the words you want to be known for.

AI answers
What ChatGPT and Google's AI say about you.

Jonathan Kiekbusch

SWIPE →

A lot of software houses don't have SEO capabilities in their teams.

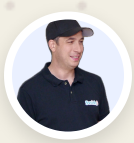

Those teams need **SEO help at launch.**

TECHNICAL AND MIGRATIONS

Old site

New site

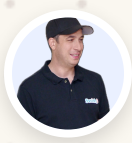

Jonathan Kiekbusch
Founder, SwishDM

We want our writers to write for the reader.

And we use specialist writers almost exclusively.

SwishDM

Your PR brief has a link target. It should have a vocabulary too.

Press releases are training data. The words you use become the words the model learns to associate with you.

You've checked whether AI mentions you. Have you read what it says?

Read it especially when it compares you with a competitor.
